HOLLOWAY'S DREAM GARDEN

GAGE T. HOLLOWAY

The Best in Glads

Henry, Nebraska

PRICE LIST, SPRING, 1939

THE CURTAIN RISES

On Another Bulb Buying Season

The trays are full of far better bulbs than we have previously grown, thanks to the favorable season, the virgin alfalfa ground newly plowed last spring and planted in the right time of the moon (now laugh).

While we have the inclination to tell you all about the grand things that were simply alive with beauty in our garden the past season, will forego this as no noticeable recession in the price of printer's ink is apparent and we conclude that all prudent shoppers prefer quality at a low price rather than too much conversation that is expensive for us on paper.

Anyway, thanks kindly to all of you who have favored us with those generous orders and written us those nice, appreciated letters the past season, and yes, we will as always strive to please you.

Now back to the old tradition of planting at the right time of the moon. Visitors here marvel at the beauty of everything in plant life that one could hope to grow in this latitude. The common expression is that plants cannot be grown as well elsewhere and, believe it or not, our planting is done whenever possible according to the best planting signs. Almanacs are not accurate and the "Moon Sign Book" published by Llewellyn Publications, Ltd. is used exclusively. Our experiments conducted along this line conclusively show that this practice greatly assists. Many customers have asked for this book in the past and we are now in position to supply it for \$1.05 post-paid. However, a \$5.00 bulb order will entitle you to purchase this book for 75c and you may have it for 50c on an order aggregating \$10.00 or more.

THE BEST THING THAT WILL BE OFFERED IS OUR FIRST INTRODUCTION
"SILVERY TETON"

Named after the Grand Teton Mountains lying west of us in Wyoming and universally conceded as not being surpassed in beauty by any other mountain range in the United States. Likewise we feel that this new seedling has not and ⁴/₁₀ .15 surpassed by any other introduction of the year. Our brief description follows:

Dream O' Beauty X Pythia—Dream O' Beauty size and color with added distinct silvery sheen and perfect placement; 6-7 florets open and as many buds showing color; vigorous tall grower and spikes straight as an arrow. Proclaimed by all as the most beautiful and valuable Glad in our garden.

We have only a small stock of this and will release not more than fifty bulbs this year @ \$3.00 each, net, no discount, for any size bulb. Price will remain the same for three years and no bulblets for sale during this period.

We are not convinced that any seedling should be introduced at a high price and feel that further comment is unnecessary.

Relative to our General Prepaid List: All items will be priced "Each" with the exception of a few items that are also priced "Per 10" (3 at the 10 rate) as noted. Again you may deduct 25% discount on orders aggregating \$5.00 or more, mailed not later than February 1st, and 15% on orders mailed thereafter, which is equivalent to a cheaper price for the quantity buyer. 25% deposit will hold your bulbs until Spring. THESE DISCOUNTS DO NOT APPLY TO OUR WHOLESALE LIST OR SPECIALS

To those who wish to pay transportation charges on your order, you will be especially pleased and surprised with the overcount and extras we will include and in the event your order totals \$5.00 after discount is deducted. Look over our "Super Value Prepaid Special" and select one item free, and additional items (no two alike) for each net \$5.00 that your order totals.

GENERAL PREPAID LIST

Please Remember Discount—No Single Item for Less Than 10c
All Bulbs Priced Each With the Exception of Varieties Also Priced

COLONIAL MAID (C. G. Young) excellent new light lavender that grows over 6 ft. tall, 20-22 buds, a number showing color and many 4-4 1/2 inch florets open with perfect placement. Bulblets grow 5 ft. tall and bloom. If we could picture a cornfield covered with the most gorgeous bloom one would have a conception of what this Glad is like as its growing qualities remind us of where the "tall tall corn grows". Outclasses anything we have in this respect and a top one for beauty.

We try to please you with generous overcount and also by including extras that we feel you will like. Not knowing the varieties you prefer, would be pleased to have you mention a few preferences and chances are we can include part of them. Naturally more extras on the larger orders.

As you look over this list, do you think of a friend who would be interested in it? If you do, kindly send us their name and address with your order and we will reciprocate with more extra bulbs.

Every wish to you for a lovely "Glad" garden this season.
